Government Legislation requires all schools to publish the SEN Information Report / Local Offer (clause 65 of the Children’s Act). This report is co-produced by the Headteacher, Governor’s and parents. It is a lengthy document and its aim is to outline the provision that the school provides for children with SEND.

***School to provide a general statement about what the school provides in box below**

General Statement –

The Wren is a local school for the local community. Every student is known and valued as an individual and inspired to aim high in all that they do.

We prepare our students for the future both academically and socially through our Wren Skills where students develop their leadership and interpersonal qualities to enable them to play a full part in the changing global economy.

The Wren School promotes the British values of democracy, the rule of law, individual liberty and mutual respect and understanding of those with different faiths and beliefs. We are indeed an inclusive school! Our students develop and demonstrate skills and attitudes that will allow them to participate fully in and contribute positively to life in modern Britain.

3.	Information about the school's policies for making provision for pupils with SEND whether or not pupils have EHC plans	<p>We are committed to providing quality-first teaching to all of our students. Individual Departments are responsible for their curriculum and teaching staff adapt their teaching and resources to suit the needs of all learners, including those with SEN/D, in their classrooms (known as differentiation). Beyond this, we use a graduated response to SEN/D regardless of whether a student with SEN/D has an EHCP or not. This approach has four stages: assess, plan, do review. By following this process we are able to employ a range of resources to support progress.</p> <p>Where the school's resources have been exhausted, we will endeavour to gain access to further provision by making an application for an EHCP.</p>

For example, we may utilise Individual Student Profiles, differentiation and intervention groups focused on developing social skills or literacy. • On identification, the SENDCo will work with teachers to ensure quality first teaching and training e.g. differentiation and small-group guided work. • The school will work with students, parents/carers and other relevant professionals to identify appropriate equipment and facilities to support students with SEN/D.
