

23 September 2016

Dear Parents and Carers

We hope your child has had a positive and successful first two weeks in year 7.

As you may be aware, during our 'Tools of the Trade' unit, students have been taught all lessons in their form groups. We hope this has helped your child to feel secure and eased the transition into secondary school.

From 26th September, grouping changes will occur in English, Maths and Science. Decisions regarding these learning groups are made by Miss Muse, English subject leader, Mrs Jubb, Head of Maths subject leader and Mr Baker, Science subject leader. Students have been placed into groups based on teachers' understanding of your child's needs and abilities, as evidenced by their work in the first two weeks of school. Grouping changes in other subjects will not be made until January, although groups are 'fluid' and individual changes can be made if needed.

Students' new timetables will be issued to them on Monday 26th September.

Kind regards

Ms D Detterick
Deputy Headteacher
